Clear Google Chrome Cached Images and Cookies

Last Modified on 29/09/2022 10:13 am BST

Introduction:

- This guide will show the steps needed to follow to clear cached data and cookies from Google Chrome.
- You will likely be asked to follow these steps if there appear to be issues with Google Chrome formatting or loading web pages.

Steps:

1. With Google Chrome open, click the three dots at the top right of Chrome 👔 > Click Settings;

2. Click Privacy and Security from the menu on the left hand side > Then click Clear Browsing data;

C	Settings	٩	Search settings	
	You and Google		Your browser is managed by your organisation	
- °	Auto-fill	Safet	y check	
0	Privacy and security	0	Chrome can help keep you safe from data breaches, bad extensions and more	Check now
	Appearance	Priva	cy and security	
Q	Search engine	Γ.	Clear browsing data	
	Default browser		Clear history, cookies, cache and more	
Ċ	On start-up	6	Cookies and other site data Third-party cookies are blocked in Incognito mode	,
Ad	lvanced	- 0	Security Safe Browsing (protection from dangerous sites) and other security settings	,
*	Extensions		Site settings Controls what information sites can use and show (location, camera, pop-ups and more)	,
۲	About Chrome		Privacy Sandbox Trial features are on	

3. At the top click Advanced > Choose All Time for the Time Range > Tick the checkboxes for "Cookies and

other site data" and "Cached images and files" only;

4. Click "Clear Data" > Once finished restart your Chrome.
